

Your Einstein Complex

Dr. Boger offers an opportunity to answer the questions. And question the answers.

by **Dr. Roger Boger**

799 words | 3 pages

1) Network Marketing - Einsteins right way Equation for Success.

To become a professional marketer requires the understanding of specialized knowledge. This study unlocks the secrets in a simple-to-understand presentation. If you have a glorious driving machine (vehicle, like a Ferrari, Testarosa), first find out if your prospects want to drive the machine before spending too much of your valuable time.

2) Positive Attitudes and Motivation.

What would Einstein say about where our attitudes originate? This presentation develops a unique perspective on how energy movement is transmitted from the highly motivated individual. Attitude and motivation are THE TWO MOST IMPORTANT ingredients for success at any time in history, but more importantly, your present time!

3) Creativity

Thinking out of the box like Einstein, is how mankind has and will continue to progress. The creative process starts with dreams and moves toward concepts and ideas. Learn the magic of right and left brain integration to develop creativity. “Energy Is” and that creative phrase forms the basis of all things in the Cosmos.

4) Diseases

How would Einstein view disease? Learn how the history of medicine from the Nai Ching Dynasty to present times has changed and not changed at the same time. Where is health care or sickness care going- in the right direction, or the wrong direction? What are the future models for wellness and what will be the financial implications if we do not change our course and current pathway?

5) Prosperity

It's all in the mind first of all, and then it is manifested through complete understanding of success principles. These principles, first compiled by Napoleon Hill, recorded by Earl Nightingale and now taught by Michael Beckwith, Bob Proctor and Jack Canfield, are all revealed in the Universal Laws. Learn why Albert Einstein needed to work in harmony with those laws. Why does God want you to go forth and prosper?

6) Thinking

How did Einstein think? Most people would rather die than think- as a matter of fact, most people do! Many wonder what their neighbors will think - well don't worry, because they don't usually. The founder of modern philosophy, Rene Descartes said "Cogito ergo sum", translated into English- "I think, therefore I am". What does this thinking process look like? You will see it materialize before your very eyes.

7) Vision

Vision is like a telescope that brings the distant future into the present time. How did Einstein view our inner and outer universes - are they the same? Great entrepreneurs have always been known to be visionaries, and you can learn their secrets by watching, listening and awakening. When Buddha was asked, "Are you a god?" he said "No." When then asked "Are you a saint?", he replied "No, I am awake." Great visionaries have always been awake and highly aware.

8) Leadership

While studying all the great leaders in history and those living in our contemporary times, one finds that they all possess common threads or critical attributes that made or make them great today. Learn what those characteristics and attributes are, so that you may lead, rather than follow.

Dr. Roger Boger practiced dentistry for 26 years in Easton, PA Roger retired from dentistry in November, 1998

Royal Diamond Wellness Consultant with *Nikken*. Nikken is a company that distributes Wellness Energy Products to over 40 countries. Wellness Consultant of the Year for 2001. Presidents club member and

Millionaires club member.

Lecturer both nationally and internationally on Health & Wellness. He has spoken in Japan, Canada, France, England, Switzerland, Norway, Sweden, Germany, Russia and the Caribbean, among other places. He has lectured on Energy Medicine nationally. He has authored articles for journals for people involved in the distribution of Wellness Products and journals for marketing. He has recorded many audiotapes, videotapes, CDs and DVDs to mentor people who are involved in similar businesses.

Dr. Boger created a Wellness Center called *Lifespan, The Center for Integrative Health*, on Hilton Head Island, South Carolina and is constructing others at Bear Mountain Resort in Victoria British Columbia and Texas A&M University. The unique concept includes traditional, alternative and wellness approaches to help people make the best lifestyle changes that will ensure long and healthy lives. His plans include constructing these facilities in many global locations. Each venue will have a focus on Integrative medicine and each facility will be Feng Shui consistent in its physical plant design. This, along with his Nikken business, Real Estate investment, creating aggregation type business models for global domination in health care and authoring his current book "*Your Einstein Complex Awaken your inner genius*" is in alignment with his life's purpose.
