If you are new to MLM you can get overwhelmed with all of the tools and ways to build a business. While many of the strategies work, it's important that you focus on what's going to give you leverage and the ability to scale your business up without breaking the bank. Here are 3 must have tools you should use to create success:

**Aweber-** Have you ever been told that you need to make a list of everyone you know?

**Well the real goal is to create a database of interested prospects. One of the great ways to do that is to use an autoresponder. The great thing is that this tool will allow you to create a database that you control.**

You can send an email to this list and reach out to prospects or existing customers at anytime. This service is \$19.95 which is less than the cost of a large pizza.

**[FreeConferenceCall.com](http://FreeConferenceCall.com)**- One of the keys to having success in MLM is connecting and staying in touch with your prospects, customers and team. One of the ways to do so is to use a conference call.

[www.FreeConferenceCall.com](http://www.FreeConferenceCall.com) is a great tool because it allows you to set

up a free call and meet with people with simple access to a phone. You simply sign up and get a new account. Once you do then create a reason for people to get in on the call with you.

## Some examples are, team meetings, customer quick starts and product trainings.

**Audio Acrobat** - An inside secret that leaders do in the profession are interview other successful people. Why? It allows you to learn from someone who is great at what they do. The cool thing is that when you record it you can simply send out a link or file to the person or group of people you want to hear it. When you hang up after the call it simply converts into a simple and easy mp3 file.

Don't make building your MLM business a financial hardship. Get these three tools and implement them in your business right away. Once you build a list, talk to prospects and customers, interview leaders and record them you are starting to lay the foundation for success.

I invite you to learn how to use these tools and so much more by going to the blog at
